## Employee Wellness

### ACROSS

1. Making slight adjustments to your diet may give you more \_\_\_\_\_ and prevent weight gain or illness.
3. Take frequent, short \_\_\_\_\_ to stretch and get your blood flowing throughout the day.
5. Plant-based proteins like beans and soy add \_\_\_\_\_ to your meal.
6. Exercising 30 minutes a day, five days a week can significantly improve your \_\_\_\_\_ and prevent weight gain.
9. Store medications in their original containers and keep them up, away and out of sight—especially from \_\_\_\_\_.
12. When shopping, look for products that name a whole grain \_\_\_\_\_ first on the list.
13. An estimated 1.2 million emergency room visits in 2009 were related to prescription \_\_\_\_\_.

### DOWN

1. Overdose deaths from prescription painkillers are reaching \_\_\_\_\_ levels.
2. If your doctor prescribes you painkillers, be sure to read \_\_\_\_\_ labels carefully and take only as directed.
4. Choose lean cuts of meat like \_\_\_\_\_ and chicken breast.
7. Never share your \_\_\_\_\_ with someone else.
8. Top baked potatoes with low-fat \_\_\_\_\_ instead of sour cream.
10. Properly dispose of unwanted medications, especially painkillers, to prevent theft or \_\_\_\_\_ by others.
11. If you live close to your job, make an effort to \_\_\_\_\_ to work.
